Statements Last Sent:	12/10/2012	Accounts Sent to Collection:	12/10/2012
Number Sent:	317	Number Sent:	3

Account Notes:

The practice continues to grow seeing overall increases in patient visits and associated revenue. New front office processes implemented in June, continue to improve the collection of co-pays and deductibles at the time of service (up by 38%). The new patient payment system is now in place. 23 patients were enrolled in January. In February, we will be discussing strategies to create public awareness regarding the new school immunization requirements and how the practice can help.

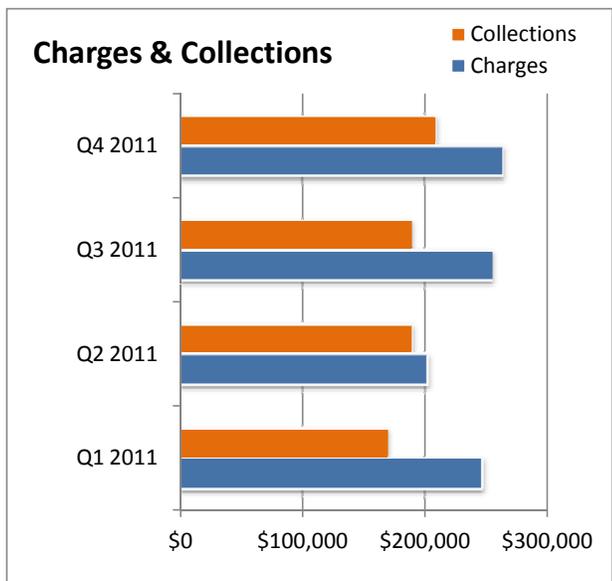

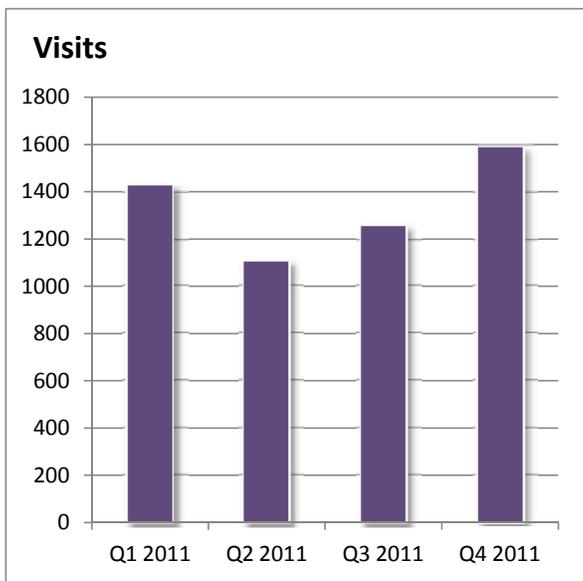

Updates:

Please keep in mind that calendar year deductibles started over January 1, 2012. The Pre-set Medicare outpatient Part B deductible is \$140.00 for 2012. Medicare will apply the deductible to claims based upon the Date of Service and not the Date of Receipt.

The 5010 conversion is complete with no issues noted and, more importantly, no interruptions in cash flow.

New fee schedules have been loaded for all payors.
